

Mobile Power

Features

The Hawkins Mobile Power unit is capable of supplying 350W of modified sinewave AC power. It has a built in 12AH battery that powers the inverter. The battery is recharged either via mains or a solar panel.

This unit is ideally suited to power energy saver lights, cell phone chargers, hair clippers etc. The 220Vac output power is taken from the 2 pin socket on the front panel. It has the facility to connect an external battery which can increase the runtime of the inverter. The meter on the front panel indicates the charge current flowing into the battery. The Orange LED indicates that the battery is charging and the Green LED indicates that the battery is fully charged. If an external battery is connected, the charging circuit will charge both internal and external batteries together.

WARNING!!!

Observe correct polarity when connecting an external 12V battery.

- * Thermal overload protection
- * Overload Protection
- * Polarity Protected
- * Short Circuit Protection
- * Portable
- * Two year warranty (Excluding Battery)
- * Manufactured in South Africa

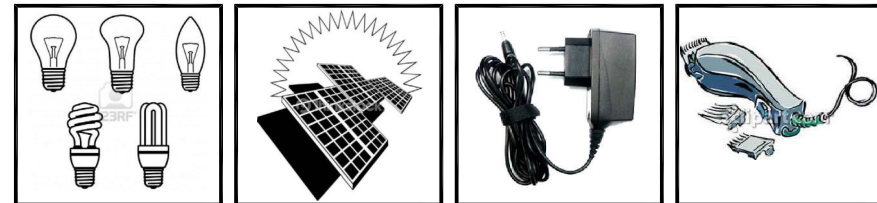

Code: 1119090

Detailed Specifications

Rated Input Voltage	:	230V a.c.
Rated Input Current	:	0,34 A a.c.
Rated Output Voltage	:	12V d.c.
Rated Output Current	:	3,4A d.c.
Inverter Power	:	350W
Internal Battery	:	12V 12AH SLA
Dimensions (WxHxL)	:	210/210/315 mm
Dimension WIDTH is front view	:	
Weight Nett/Gross	:	8,3/9,3 Kg

In the interest of product improvement, specifications may change without notice.
